Hola mi nombre es Angeles y soñaba con ser enfermera desde pequeña, entré al grupo de BSF (una gran asociación que gracias a toda su ayuda pude lograr mi sueño, ya que sin ellos no lo hubiera logrado mis papás trabajaban en el campo y gracias a BSF ellos pudieron sacarnos adelante, cuando cursaba la primaria conocí a José y Larry de BSF, unas grandiosas personas magníficas, unos grandes seres humanos con un corazón enorme que llenaron de amor a toda la familia recuerdo que siempre estuvieron al tanto de cómo estábamos y siempre se preocuparon por nuestra salud.

Hello my name is Angeles and I dreamed becoming a nurse since I was little. I joined the BSF group (a great association that thanks to all their help I was able to achieve my dream), without them I would not have achieved it, since my parents worked in the fields. BSF helped us to get through. When I was in elementary school, I met José and Larry from BSF, some great magnificent people, great human beings with a huge heart that filled my whole family with love. I remember that they always kept up to date with how we were and always cared about our health.

Al concluir con la preparatoria estaba lista para el siguiente año y logré entrar a la universidad para estudiar la Licenciatura de enfermería en tijuana inscribirse es fácil lo difícil es llegar a tiempo a las clases ya que entraba todos los días a las 7 de la mañana y salía a las 4 de la tarde por 4 años y había días en los que solo dormía 3 horas. Mi servicio social lo elegí en el hospital general de rosarito. Donde estuve durante un año aprendiendo de magníficas enfermeras y grandes seres humanos.

opte por meter solicitud de empleo por las tardes en una clínica en rosarito. (El cual me aceptaron) entonces en las mañanas realizaba mi servicio donde me tenía que despertar a las 5 de la mañana para poder tomar mi taxi a las 6 de la mañana y lograr llegar a tiempo. trabajar y realizar mi servicio. después de terminar mi servicio realicé el examen EGEL. Logrando sacar desempeño satisfactorio (anexo foto)

After finishing high school, I was ready for the following step and I was able to enter the university to study a Nursing Degree in Tijuana. Enrolling was easy, but it was difficult to arrive on time for classes since I started classes at 7:00 am and finished at 4:00 pm for 4 years. There were days when I only slept 3 hours. I chose my social service at the Rosarito General Hospital. I spent a year there, year learning from magnificent nurses and great human beings.

I opted to apply for employment in the afternoons at a clinic in Rosarito. (Which they accepted me). In the mornings I did my social service where I had to wake up at 5:00 am to be able to take my taxi at 6 am and get there on time. In the afternoons, after leaving my service, I transported to my work from 1:00 pm to 10:00 pm. I sometimes arrived home at 11:00 pm, tired but happy that they gave me the opportunity to work and carry out my social service. After finishing my social service I took the EGEL exam. Achieving satisfactory performance (annex photo)

Posterior a esto se vino la ola de covid-19 Justo cuando iba a iniciar mi papeleo para mi título de enfermería. Pasaron muchas cosas perdí muchas amistades a causa del covid-19 fue un año duro. Pase por problemas médicos los cuales ya logré salir.

Actualmente sigo esforzándome para lograr grandes cosas logré pasar el curso de AVC y Acls trabajo como enfermera en una clínica de cirugía, como enfermera circulante en el área de quirófano y en otras ocasiones como enfermera de piso cuidando a paciente post-operados. El área de enfermería es muy bonita donde se necesita mucho corazón, paciencia y ganas de hacerlo. Sigo actualizándome, tomando cursos, capacitándome por qué nunca se puede dejar de estudiar. Pienso seguir estudiando para lograr ser algo más. (Anexo fotos de mi trabajo actual).

After this, the wave of COVID-19 came just when I was going to start my paperwork for my nursing degree. A lot happened, I lost a lot of friends due to COVID-19, it was a tough year. I went through medical problems which I already managed to get out of.

Currently, I continue to strive to achieve great things. I managed to pass the AVC and ACLs course, I work as a nurse in a surgery clinic, as a circulating nurse in the operating room area and sometimes as a floor nurse caring for post-operative patients. The nursing area is very beautiful, where a big heart, patience and desire are needed. I've kept updating myself, taking courses, training myself because you can never stop studying. I plan to continue studying to become something more. (Annex photos of my current work).

BSF los amo con todo el corazón, espero la vida les multiplique con muchas cosas todo lo que hacen por cada uno de nosotros.

Muchos sueños se comenzaron a construir esperando el autobús a las 5:00 am, gracias por darme la oportunidad de lograr hacer realidad mi sueño.

BSF I love you with all my heart, I hope life multiplies everything you do for each one of us.

Many dreams began to be built waiting for the bus at 5:00 am, thank you for giving me the opportunity to make my dream come true.

Hi my name is Denis Vanessa Lora
Coampa, i'm in the second semester of
high school, i practice the guitar and
i'm in high school cheerleading, i want
to thank all of you for supporting me
in my studies, and supporting me in
my dream of being a fashion designer,
and thank you for everything you have
supported, i promise that i will not fail
the foundation again, like Brook, since ~~that~~
thanks to you who support me so much,
that is why i am going to fight to be a
fashion designer, i hope and you can
excuse me for the times that i have
failed or disappointed you since it is
not my intention and i really want to
apologize for every thing, as well as
thank you for the understanding you have
given me, i hope you have a nice day
and i thank you very much for everything.
I hope one day i can thank you and support
you as much as you do me.

Hello, how are you? Kind regards.

I would like to share with you a little bit about me and the career I am pursuing.

My name is Tania, I am 19 years old and I am currently studying the fourth semester of a dental surgeon at Universidad Rosaritense.

This semester I have 5 subjects which are all theoretical, no practice.

And among them I study the subject of Dental Surgery with Dr. Angelica (Angelica is a BSF student graduated from the same university where I am studying and now she is my teacher).

I also wanted to take the opportunity to share with you that today 04/20/23 I had my first exam in your class, and it went very well, I am proud of myself for the results obtained and also of Angelica for being a great teacher.

It is important to emphasize that all this is possible thanks to the great support provided by BSF, my sponsors Sonja and Charlie, Rosemary and my parents.

I thank you for allowing me to achieve each goal and for giving me the opportunity to be someone in life.

NEVER
Give up
BECAUSE
Great things

(By Rosemary)

Johann was always a 10 student until Prepa. His second year of Prepa he was failing. Judie went to the student's home to confront not only the student but also his parents. Neither of his parents were working, but our student left school each afternoon to go to work for another 8 hours in a restaurant to support the family. The mother was a stay at home mother raising other small children and the father did nothing. Judie asked the father one question: Do you want your son to grow up to be like you? The father broke down in tears, and swore that he would support his son in his studies and that he would find a job to support his family. He is now graduating University and his GPA has always been in the 9's. That one visit changed his life. I have known this kid since he was in middle school. He is smart, funny, loving and most of all Kind. He is everything we could hope for in a BSF student.

Hello Rosemary, good afternoon, I hope you are well. I am sending you this message because I had mentioned that I would keep you up to date with my graduation process, and it is that, after the incident that I told you about, I finally have everything completely released and this week I sent the documents to start the graduation process. The university told me today that the following week I have to physically take the photographs for the graduation to ending this stage of my life.

I've been looking at some master's degrees in psychotherapy, which I'm too excited about anyway, but we're going one step at a time. I just wanted to keep you up to date on what's going on.

Tomorrow I will look for the place where the photos are taken with the formats requested for the documents, and I will tell you about it. Seriously, thank you very much for all the support you have given me and continue to give, you don't know how much I appreciate it and how happy it makes me to be one step away from finishing. You have always been present in my goals, and that is something that I am very grateful for. 🥺❤️

Hello Rosemary, just to inform you of the price of the photographs that I mentioned before; I asked in 3 different places, and the price is between 450 and 600 pesos for the 6 photographs needed for the title. I consider that I will go to take the photographs on Monday for Tuesday to go to Ensenada to leave them at the university and ask about the following procedures, to keep you up to date. I still have to confirm what is related to the academic act of degree, whether it is necessary and the estimated date of arrival of my degree (this will be seen once the photographs are delivered) In advance, once, thank you very much. I will never tire of saying it, because of the angel they are to me. I love you very much, I hope to see you soon, and to be able to make BSF proud for all the good they have done.

You two have always been and will continue to be one of my main inspirations, and knowing that I can achieve what you have helped me so much makes me quite happy. After everything that has happened, I still run out of words to thank, and that is why I try to do it with actions. I love you very much, as I love Judie. You will always be in my heart. 🥺❤️

I am so very happy for you and all your accomplishments. You make my heart swell with pride. You are truly why Judie and myself love you. You have worked very hard to become the wonderful young man you are. I will always be here for you. Always, Rosemary

Hello everyone, my name is Elmer Zuñiga. I'm 18 years old and I really enjoy playing soccer and spending time with my family. In August, I will start the final stage of my academic journey,

which is university, and it hasn't been easy. I am very grateful to the foundation for all their support and commitment to all the students who are part of it. Speaking for myself, I am extremely grateful to them. They have done so much for me. In 2021, thanks to them, I graduated from Cambridge. When I arrived, I was in the second year of high school and I didn't know English. Now, after a few years have passed, I have two English certificates, and I'm just a few months away from starting university. I don't have enough words to express my gratitude for their support,

agradecer su apoyo, que no solo ha sido económicamente, si no he conocido personas maravillosas dentro de la fundación, con quienes me siento muy cómodo conversando de mis planes, mis metas y mis ideas y mismas personas que confían en mí a veces más que yo y que me animan a no rendirme y continuar con la mirada puesta en la meta.

which has not only been financial. I have also met wonderful people within the foundation, with whom I feel very comfortable discussing my plans, goals, and ideas. These are the same people who believe in me, sometimes even more than I do, and they encourage me not to give up and to keep my eyes on the goal.
